SPRING FLOWERING BULBS

shorten the long winter devastation of the garden by giving us flowers at the first glimpse of spring.

Their culture is the easiest and simplest of all flowers. In fact the flowers are already grown for you in Holland, and stored in the bulbs we offer you. Take a hyacinth glass, fill with water, place a bulb in it and put in a cool, dark place until the roots have reached the bottom of the glass, then bring out to the light and heat. Think of your pleasure in watching the bud develop, the leaves appear, the flowering truss shooting up, the final development of the long spikes of bloom. And they can be brought out from time to time during the winter.

Both Hyacinths and Tulips can be placed in pots, bowls or bulb pans, in separate colors or in mixture, and handled the same as the glasses. That is: keep in a cool dark place until they have made good root growth, when they may be brought out to light and heat as wanted.

How to Plant Bulbs

Thoroughly prepare your bulb bed by digging and pulverizing to a depth of 12 to 18 inches, and mixing in a liberal quantity of bone meal. Use no fresh manure. Hyacinths and Crocus should be planted as soon as they are received. Tulips should not be planted until the leaves fall. Hyacinths should be planted 5 to 6 inches deep and 4 to 6 inches apart; early Tulips, 4 to 5 inches deep and the larger late Tulips 5 to 6 inches deep and 3 to 4 inches apart. Crocus should be planted about 2 inches deep and 4 to 6 inches apart. Care should be taken that the beds are well drained as the bulbs would rot if planted where water would stand.

We can especially recommend all the varieties we list as they were carefully selected.

Send Your Order Now—You need not pay until the bulbs arrive from Holland in September, but if you send cash with your order, you may deduct a cash discount of 5%. No discount can be allowed after September 1st.

PEACOCK'S SELECTED TULIPS

We wish every reader could have seen our trial beds of all the varieties of Tulips we catalogue, in full bloom, at *Dahlialand* last Spring. Truly never before was seen such a gorgeous sight. All the illustrations in this book were reproduced from photos. taken at these trials.

First we had a Dutch friend, who has grown Tulips all his life, and knows Tulips as we know Dahlias, make a list of the very best of each of the different classes. We wanted only the best, regardless of price. In other words we did not want a high priced variety unless it was better, or entirely distinct.

We planted our trial grounds of Tulips, Hyacinths and Crocus, each variety, in each class, in alphabetical order, knowing Nature never clashes.

While we have always loved Tulips, never before had we realized their true glory. The whole effect was so informal with the most gorgeous color effects.

The Early Single and Early Double Varieties started the last of March, followed by the Darwin, Cottage, Breeder, Rembrandt, Bizarre, Byblooms Roses, Byblooms Violets, Parrot, Lily Flowering and Late Double, giving a continuous display until June.

"The most gorgeous Tulips I ever saw" was the universal remark of the thousands of visitors.

In fact we have become so enthusiastic, that each Spring we will not only have a bed of each of the varieties we catalogue, but many other varieties especially the new hybrids, for the pleasure and benefit of our customers and ourselves.

EARLY SINGLE TULIPS

These are the early brilliantly colored Tulips that have again become so popular, for growing inside in Winter and for massing in the garden.

Tulips are most deservedly popular as they are hardy and will give more pleasure at less risk and trouble than any other flower. And no other flower comes so early and makes such a cheerful and brilliant showing. The bulbs should be planted about 4 to 5 inches deep and three inches apart. They may be dug up and dried off, to be planted again in the Fall or allowed to remain for two or three years, or until they get too thick to bloom well. In this case, you can dig them up and replant the largest ones.

For best effect Tulips should not be scattered about singly, but planted in masses or groups, either mixed colors or separate varieties according to effect wanted or the fancy of the grower. When wanted for inside growing, put 6 bulbs in a 6 inch pot.

We list the 18 very best varieties, that with us were a marvelous success and can be depended on to give you the very best. They all bloom early and practically at the same time, but vary somewhat in height. To assist in selecting those of same height or planting the dwarf varieties in front, we give height after each name.

LATE OR MAY FLOWERING TULIPS

follow Early Single and Early Double Tulips, flowering from the last of April until early June. The flowers are very large of exquisite colors and are produced on long and firm stems. The most popular of the May blooming are the

GIANT DARWIN TULIPS

The present day Darwin Tulips are a revelation in size, form, coloring and general loveliness. We call attention to Europe reproduced in natural color on front page and Pink Perfection on page 16. Also to the photos of Prof. Rauwenhoff and Wm. Copeland. These give an idea of the wonderful coloring and splendid forms, as they are representative types. This most popular of the May flowering Tulips is quite distinct from the other classes. They are strong, vigorous growers, producing the giant flowers on long stems from 24 to 30 inches high, making them most invaluable for cutting as well as massing. They embrace all shades of red and pink to pure white. The yellow deficiency can be supplied in the Cottage varieties and the Bronzes in the Breeders, described further on. We list 25 very best varieties.

SEVEN GORGEOUS DARWINS

These are the very finest of the newer introductions and will be a source of great pleasure and satisfaction.

AFTER GLOW. Entirely distinct, deep rosy orange edged salmon. 3 for 30c; Doz. \$1.00; \$7.50 per 100.

COTTAGE TULIPS

This beautiful and most popular class is entirely distinct from the Darwin, Breeder and other classes of Tulips. It is very rich in yellows of all shades, and in reds and whites. The unusual formation and marvelous coloring may be seen by the color reproduction of **AMBER GRIS**, page 17, and the illustrations of **Gesneriana** and **Picotée**. These illustrations show three distinct types, and give some idea of the beautiful forms and variations that make them so popular. They are entirely hardy. We list 12 best varieties.

AMBER GRIS. See color reproduction and description page 17. 3 for 25c; Doz. 80c; \$5.00 per 100.

AVIS KENNICOTT. Large yellow flower, with black base on immense long stems; extra fine. 3 for 35c; Doz. \$1.25; \$9.00 per 100.

COLUMBUS (Gala Beauty). This was one of the most showy and striking in our trial grounds this Spring. Yellow flamed scarlet; sweet scented; extra fine, with very long pointed buds and flowers. 3 for 35c; Doz. \$1.15; \$8.00 per 100.

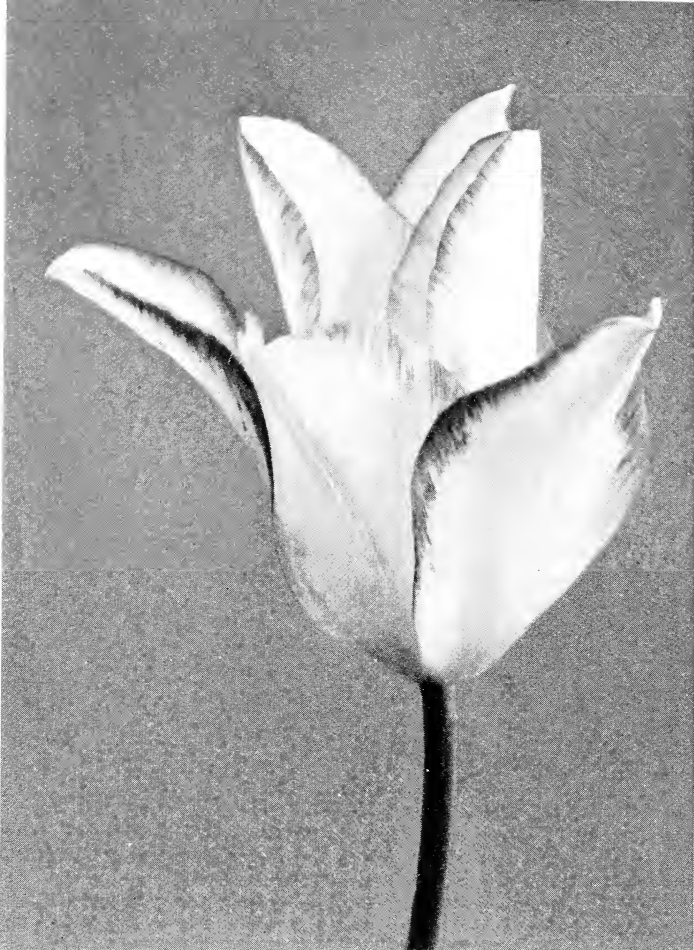

FAIRY QUEEN. Rich heliotrope and yellow, fine large flowers. 3 for 25c; Doz. 75c; \$5.00 per 100.

GESNERIANA TRUE (Spathulata). See page 10 for natural size and beautiful form of this most popular variety. Color, bright scarlet, with dark blue center. 3 for 20c; Doz. 70c; \$4.50 per 100.

HOBEMA. Very large flowers on stiff medium stems; flesh color, tinged buff. 3 for 30c; Doz. 85c; \$6.00 per 100.

INGLESCOMBE YELLOW. This is sometimes called the Yellow Darwin, because it is used for yellow in a collection of that class. Large, soft clear yellow, becoming suffused with orange as the flower develops. 3 for 20c; Doz. 65c; \$4.00 per 100.

MRS. MOON. This is the most beautiful of all pure Yellow Tulips. Clear canary yellow, large size, beautiful form and long stems. 3 for 25c; Doz. 85c; \$6.00 per 100.

COTTAGE TULIP—"Picotee"

PICOTEE. So named from its markings resembling the Picotee. Large white, margined pink, becoming more suffused as it develops. See illustration. 3 for 20c; Doz. 70c; \$4.00 per 100.

RETROFLEXA. Bright yellow, recurved petals, being entirely distinct in form; fine flower. 3 for 25c; Doz. 85c; \$5.00 per 100.

SNOWDEN. Pure white, large, has pure white stamens and keeps its color until the end. 3 for 25c; Doz. 80c; \$5.00 per 100.

THE FAWN. Delicate pink, changing to pale rosy fawn. Large, on fine stems. 3 for 20c; Doz. 70c; \$4.50 per 100.

DARWIN TULIP—"Pink Perfection"

PINK PERFECTION. Truly a most beautiful new variety. Light pink, shading to deep rich pink. Of perfect form produced on very long, stiff stems, it has great substance and keeps for weeks on the plant or when cut. The flowers grow larger and larger as they develop. Doz. 75c; 100 for \$5.00; 1000 for \$45.00.

EUROPE. Shown in natural color on front cover page. This is another of the popular Darwins, but a different shape and type of flower. It is not only the best and brightest red Darwin, but is also best for cutting or for the garden. The flowers are beautifully formed on long stiff stems. Doz. 65c; 100 for \$4.50.

The Darwins are the most popular because of their brilliant colors, large size and great hardiness.

Special Offers—our selection—100 in 4 varieties for \$3.50. 100 in 10 varieties for \$4.00. Splendid Mixture, Doz. 45c; 100 for \$3.00.

COTTAGE TULIP—"Amber Gris" (natural size)

The Cottage or May Flowering Tulips have long been great favorites because of their wonderful coloring. They embrace a much wider range of colors than can be found in the other late tulips.

AMBER GRIS, shown in natural colors above is natural size and shows the rare blending of colors, as well as the beautiful form. It is produced on long erect stems and is one of the very best for bedding or for cutting. Doz. 75c; 100 for \$5.00.

Special Offers of Cottage or May Flowering Tulips:
100 in 4 varieties named our selection for \$4.50.
100 in 10 varieties named our selection for \$5.00.

Special Mixture embracing all our named varieties.
Doz. 75c; \$5.00 per 100.

Splendid Mixture all colors, Doz. 45c; 100 for \$3.50.

BIZARRE TULIP—"Fancy"

BIZARRE TULIPS

This is one of the most striking of the newer types. They have dark stripes on a yellow ground and are among the very largest, especially the new variety, "Fancy" shown above. We offer 3 best varieties:

ABSALOM, orange, feathered brown and yellow. A new variety of large size and very long stems. Entirely distinct and effective. Doz. \$1.00; 100 for \$7.00.

FANCY. The giant variety shown above. Orange mahogany with dark yellow stripes. This new variety attracted the greatest attention in our flowering trials last May. Doz. \$1.25; 100 for \$9.00.

ROMEO, yellow, feathered and bordered orange red. Very distinct and striking. Doz. 80c; 100 for \$6.00.

SPECIAL COLLECTIONS

 Splendid Mixture, 6 for 40c; Doz. 70c; \$5.00 per 100.

DARWIN TULIP—"Prof. Rauwenhoff" (see page 10)

REMBRANDT TULIPS

This is one of the loveliest types of Tulips. They are really a strain of striped and feathered Darwins. They are giant May blooming, with long stems 18 to 24 inches in height. The illustration on page 20 will give a most accurate idea of their unique markings, as if painted by a master hand, hence their name, and they would surely be a credit to Rembrandt. As a work of art, they are nature's masterpiece.

HEBE. Lilac and white flamed maroon, very effective and striking. 3 for 30c; Doz. \$1.00; \$7.50 per 100.

ELLEN. Very bright and pleasing; red, beautifully feathered white. 3 for 25c; Doz. 80c; \$6.50 per 100.

PURITY. Very pale violet feathered white; the lightest in color in this class. 3 for 30c; Doz. \$1.00; \$7.50 per 100.

LILY FLOWERING TULIP—"Sirene"

LILY FLOWERING TULIPS

Flowers with outward spreading petals. This is a new class and most gracefully beautiful. The flowers are large, with long pointed buds and as they develop open outward. They are produced and held gracefully on long stems. They have great substance and keep well, making them valuable for cutting.

ALASKA. Pure yellow; very large, with long stems, sweet scented. Each 25c; 3 for 70c; Doz. \$2.50.

HEBE. Deep red, very fine; the form is very similar to Sirene, shown in above illustration. Each 15c; 3 for 40c; Doz. \$1.50.

SIRENE. Beautiful satin rose, shaded deeper. See the illustration above showing the flower, natural size, in a half expanded form. We had to use the partly opened condition in order to show natural size on this page. You can realize the size when fully expanded. Each 10c; 3 for 25c; Doz. \$1.00.

25 each of preceding 3 . (75 bulbs)	for 8.25, "

LATE DOUBLE TULIPS

This is just what it says as the illustration shows. This illustration is greatly reduced in size. The flowers are much larger than the early Double Tulips and the stems are much longer. They are May blooming, coming into bloom with the other late Tulips, but last longer, being the last of the Tulips for the season.

We offer 6 best varieties.

BLUE FLAG. Very large, violet blue, very double.
3 for 30c; Doz. 1.00; \$7.50 per 100.

SINGLE HYACINTHS

are the most beautiful and popular, being much more satisfactory than the double. They may be planted anytime from September until December, and immediately begin to make root growth. Freezing in the ground will not hurt them. At the first approach of Spring, they will burst forth in gorgeous bloom.

To get the best blooms, Hyacinth beds should be covered with leaves, litter, straw or pine branches. This will prevent injury by constant freezing and thawing. Do not uncover too early in the Spring.

On the next page we list 15 best varieties, all selected first size bulbs, all guaranteed.

CITY OF HAARLEM, golden yellow, a splendid variety.

GARDEN ROSES

In adding roses to our list, we are following the same policy that has proven so successful in Dahlias. We not only list just the best varieties, selected most carefully from thousands but, also have a trial grounds where all may see just how each variety does in the garden, thus enabling a selection of those that appeal most to each individual taste. The roses are two years old, grafted or budded, guaranteed true to name, and if given proper care will give the greatest satisfaction.

HARDY EVERBLOOMING HYBRID TEA ROSES

We list mostly the newer and thoroughly tested Hardy Everblooming Hybrid Tea Roses. When you visit our farms to see the Dahlias, you can see the roses in bloom and make your selection. We recommend Fall delivery and by planting according to our instructions, which go forward with each order, you will have the most wonderful roses next Spring and through the entire season until freezing weather. Do not fail to see our hardy roses blooming this Fall.

VISITORS ALWAYS WELCOME

We are always glad to have our customers and their friends visit our grounds. Crocus, Hyacinths and Tulips are in full bloom from last of March until June, when Peonies come into bloom. These are followed by Gladioli and Dahlias. Our trial grounds are the most complete. Visit Dahlialand next September and October and see the World's Best Dahlias in their home.

"MARIE"—the New Dahlia that is different.

A 1930 Introduction

MARIE. The above illustration is a half tone reproduction from a color photograph taken of this most unusual and beautiful Dahlia. It is of the Pride of San Francisco type of growth and coloring, but entirely distinct. The form is not so stiff, the flower is larger, the color is clearer and it is a much better keeper. This will be one of the sensations of the 1929 season.

OTHER 1930 INTRODUCTIONS

A. LINCOLN. The ideal red Hybrid Cactus. A grandson of Kalif and son of Zeus. The exquisite color, large size, splendid form, together with long stiff, but slender stems and freedom of bloom, make it the perfect red hybrid cactus that has always been wanted.

ELIZA LONDON SHEPPARD. Even the thought of this glorious flower arouses our enthusiasm. It was grown to order for Mrs. Sheppard, who while President of the "Women's Auxiliary Legion" and in attendance at the "Legion Convention" in Philadelphia in 1926, was so pleased with our Dahlias. It is truly the most glorious golden variety and worthy to bear the name of so notable a citizen of the "Golden State."

GIANT BREEDER TULIP—"Velvet King"

Of all tulips the old Dutch Breeder is not only the largest, but gives us a range of colors not found in the other types. Velvet King is the largest and finest of its color, a rich purple with velvety shadings and a creamy white base. The illustration above is much reduced in size. The giant flowers are produced on long stiff stems 2 to 3 feet high. You will not have the best if you do not have Velvet King. Doz. \$1.25; 100 for \$7.50.

Splendid mixture of Giant Breeder Tulips, all colors, Doz. 60c; 100 for \$4.00.
